Statement Hand fabricated metal and organic bezels elevate fossilized animal teeth, opals & unusual minerals -all harmonizing to excite the eye. Non-traditional bezels add to the texture and fluidity of the piece. Metal is uniquely enclosed, bent, soldered, and built up resulting in a natural, eclectic art.

Statement My jewelry is constructed using traditional metal and wireworking techniques to create wearable sculpture that is distinctive and feminine. My pieces are a unique composition of texture and form, and all are created through the manipulation of precious metal with semi-precious stones for accent.

Statement I create jewelry from sterling silver and silver clay (PMC3). My sterling pieces often feature texture and natural stone cabochons made by my husband or druzi quartz that I find in Missouri. My silver clay pieces have lots of texture and include glass cabochons that I have lampworked or fused.
